## SUSTAINABILITY INITIATIVES

The 235-room Crowne Plaza Hobart opened its doors in 2020. Since then, sustainable innovations and initiatives to reduce its footprint while enhancing the guest experience have remained a key priority. The hotel, part of the IHG Hotels & Resorts group, encourages guests and staff alike to participate in its green initiatives:

- LED lighting and bamboo keys have been installed, and bulk amenities are provided by sustainable beauty brand Antipodes in tinted glass bottles to eliminate single-use containers
- 219 solar panels have been installed, reducing energy consumption and carbon emissions. It's estimated that there will be \$30,000 in savings per year and 7% reduction in the annual electricity bill
- 1,356 guests have opted into the "A Greener Stay" initiative, reducing housekeeping expenses and earning 500 IHG One Rewards points per night
- Crowne Plaza Hobart has saved 344,049 individual containers by implementing plastic-free amenities
- The hotel has accomplished several sustainability targets, including a saving of 66.5 tons of CO2 emissions since installing solar panels.
